

Environmental Sustainability Policy

Title: Environmental and Sustainability Policy	Division: Human Resources
No: HR-10	REF: KVC/ESP /010/2024
Prepared By: HR/Admin Assistant	Approved by: Director
Date: 24-10-2024	Revision: 01

1.0 Introduction

Our environmental sustainability policy outlines Kula Vyema Centre’s commitment to environmental sustainability. It establishes the principles and guidelines for minimizing our environmental impact, promoting sustainable practices, and contributing positively to the environment.

1.1 Scope

This policy applies to all employees, contractors, and visitors at Kula Vyema Centre, and covers all activities within the company’s operations, including research activities, office management, and waste handling.

2.0 Objectives

- Reduce the environmental footprint of our operations and activities.
- Promote the efficient use of resources and energy.
- Minimize waste generation and increase recycling and reuse.
- Comply with all relevant environmental laws and regulations.
- Foster a culture of environmental responsibility and sustainability.

4. Sustainable Practices

- i. **Energy Efficiency:** We will implement energy saving measures, such as using energy efficient lighting and equipment, and encouraging practices that reduce energy consumption.
- ii. **Waste Management:** We are committed to reducing, reusing, and recycling materials whenever possible. Proper disposal methods will be employed for hazardous and non-recyclable waste.
- iii. **Resource Conservation:** We will strive to minimize the use of paper and other resources by promoting digital alternatives and encouraging conservation efforts in the office.
- iv. **Sustainable Procurement:** We will consider environmental impact when procuring goods and services, favoring suppliers who demonstrate a commitment to sustainability.

5. Research Practices

Sustainable Research Methods: We will adopt research methodologies that minimize environmental impact, including the use of environmentally friendly materials and techniques.

Waste Disposal: Proper disposal procedures will be followed for any research related waste, ensuring that hazardous materials are handled safely and in accordance with regulations.

6. Employee Involvement

Training and Awareness: Employees will receive training on environmental sustainability practices and encouraged to participate in initiatives that support the company's sustainability goals.

— OF FOOD ECONOMICS —

Suggestions and Feedback: Employees are encouraged to provide suggestions for improving our environmental practices and to actively participate in sustainability programs.

Performance Monitoring: We will regularly monitor our environmental performance and conduct audits to ensure compliance with this policy and identify areas for improvement.

8. Continuous Improvement

Kula Vyema Centre is committed to continuously improving our environmental sustainability practices. We will review and update this policy regularly to adapt to new environmental challenges, technologies, and best practices.

9. Compliance

All employees are expected to adhere to this policy and support our environmental sustainability efforts. Noncompliance may result in disciplinary action.
